

British Sea Salt for Mrs Thatcher

The salt making industry is one of the oldest in the world – reputed to date back over 2,000 years. Mr. John Wakeham is the local Member of Parliament for the constituency in which Maldon Sea Salt is produced in Essex. To mark the fact that the Maldon Crystal Salt Company is the only British producer of Sea Salt, Mr. Wakeham made a presentation of their product to Mrs. Margaret Thatcher, Leader of the Conservative Party, in the House of Commons.

Maldon Sea Salt is extracted from sea water and Managing Director, Clive Osborne reports that exports, particularly to Scandinavian countries, are going well. He believes the quality of their product produces expansion through recommendation by housewives both here and abroad.

The Company promotes Maldon Sea Salt actively in the speciality food trade and are regular exhibitors at delicatessen and health food trade and consumer exhibitions.
